ABOUT

I am a self taught full stack developer with a passion for identifying and solving problems. I believe in making things easy, simple and efficient. I utilize the MERN stack for development, I do prefer Sanity studio as it makes development fast and easier.

PROJECTS

Pinphoto — pinphoto.netlify.app

Full stack Image sharing application

- Implemented user authentication with Google OAuth
- Implemented user permissions
- Designed the user interface with Reactjs

Tools used: Reactjs, Sanity, Google OAuth
